## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Managers of the  
Metropolitan Transportation Authority Retiree Welfare Benefits Plan

### **Opinion**

We have audited the accompanying statement of fiduciary net position of the Metropolitan Transportation Authority Retiree Welfare Benefits Plan (the "Plan") as of December 31, 2021 and 2020, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position as of December 31, 2021 and 2020, and the respective changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when

it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 9, the Schedule of Changes in Employers' Net OPEB Liability and Related Ratios on page 32, the Schedule of Employer Contributions on page 33 and the Schedule of Investment Returns on page 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# METROPOLITAN TRANSPORTATION AUTHORITY OTHER POSTEMPLOYMENT BENEFITS PLAN

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020 (UNAUDITED)

---

The purpose of the Metropolitan Transportation Authority (“MTA”) Retiree Welfare Benefits Plan (“Other Postemployment Benefits Plan” or “OPEB Plan” or the “Plan”) and the related Trust Fund is to provide a vehicle for the MTA organization to set aside funds to assist it in providing health and other welfare benefits to eligible retirees and their beneficiaries. The Plan and the Trust Agreement are exempt from federal income taxation under Section 115(1) of the Code. The MTA is not required by law or contractual agreement to provide funding for the Plan, other than the “pay-as-you-go” cost of providing current benefits to current eligible retirees, spouses and dependents (“Pay-Go”).

This management’s discussion and analysis of the Plan’s financial performance provides an overview of the Plan’s financial activities for the years ended December 31, 2021 and 2020. It is meant to assist the reader in understanding the Plan’s financial statements by providing an overall review of the financial activities during the year and the effects of significant changes. This discussion and analysis may contain opinions, assumptions, or conclusions by the MTA’s management that should not be considered a replacement for, and is intended to be read in conjunction with, the Plan’s financial statements which begin on page 10.

### Overview of Basic Financial Statements

The following discussion and analysis is intended to serve as an introduction to the financial statements. The basic financial statements are:

- **The Statement of Fiduciary Net Position** — presents the financial position of the Plan at year end. It provides information about the nature and amounts of resources with present service capacity that the Plan presently controls (assets), consumption of net assets by the Plan that is applicable to a future reporting period (deferred outflow of resources), present obligations to sacrifice resources that the Plan has little or no discretion to avoid (liabilities), and acquisition of net assets by the Plan that is applicable to a future reporting period (deferred inflow of resources) with the difference between assets/deferred outflow of resources and liabilities/deferred inflow of resources being reported as net position. Investments are shown at fair value. All other assets and liabilities are determined on an accrual basis.
- **The Statement of Changes in Fiduciary Net Position** — present the results of activities during the year. All changes affecting the assets and liabilities of the Plan are reflected on an accrual basis when the activity occurred regardless of the timing of the related cash flows. In that regard, changes in the fair values of investments are included in the year’s activity as net appreciation/(depreciation) in fair value of investments.
- **The Notes to Financial Statements** — provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes present information about the Plan’s accounting policies, significant account balances and activities, material risks, obligations, contingencies, and subsequent events, if any.

- **Required Supplementary Information** — as required by the Governmental Accounting Standards Board (“GASB”) is presented after the management discussion and analysis, the statement of fiduciary net position, the statement of changes in fiduciary net position and the notes to the combined financial statements.

The accompanying financial statements of the Plan are presented in conformity with accounting principles generally accepted in the United States of America as prescribed by the GASB.

## Financial Highlights

### Fiduciary Net Position

December 31, 2021, 2020 and 2019

| Benefits payable and<br>accrued expenses   | 24         | 42         | 122            | (18)             | (80)             | (42.9)            | (65.6)           |
| <b>TOTAL LIABILITIES</b>   | <b>24</b>  | <b>42</b>  | <b>122</b>     | <b>(18)</b>      | <b>(80)</b>      | <b>(42.9)</b>     | <b>(65.6)</b>    |
| NET POSITION RESTRICTED<br>FOR POSTEMPLOYMENT<br>BENEFITS OTHER THAN<br>PENSIONS |            |            |                |                  |                  |                   |                  |
|  | \$ 83      | \$ 130     | \$414,827      | \$ (47)          | \$(414,697)      | (36.2)%           | (100.0)%         |

Plan net position is held in trust for the payment of future benefits to members and beneficiaries. The assets of the Plan exceeded its liabilities by \$83 thousand and \$130 thousand as of December 31, 2021 and 2020. The net decrease in Plan value in 2021 and 2020 is a result of the distribution of plan assets to pay OPEB expenses.

|   | <u>\$ 172</u>     | <u>100 %</u>      |

## **Economic Factors**

### ***Market Overview – 2021***

The year 2021 was eventful and characterized by a strong global economic recovery following the pandemic driven downturn of the previous year. The turnaround brought with it a historic surge in consumer and producer prices, labor shortages, and global supply-chain bottlenecks. Low interest rates and stimulus measures adopted by the United States (“U.S.”) Federal Reserve Bank gave people more access to money and buying power, as did the government’s commitment to unprecedented fiscal stimulus. Personal income increased as did personal consumption expenditures. Corporate earnings were strong, despite labor and supply shortages and lingering economic uncertainty caused by the pandemic.

While initially expected to be transitory by the U.S. Federal Reserve, inflation reached a nearly 40-year high late in the year as growing consumer demand was curbed by pandemic-related supply constraints. Historically low mortgage rates helped propel the housing market boon, as both the number of residential sales and property values escalated. Energy prices, particularly gas prices, rose by nearly 50%, as crude oil reached more than \$80 per barrel for the first time since 2014. The Federal Reserve ended the year acknowledging that inflation was persistent and adopted a more hawkish stance.

Global risk assets similarly benefitted from widespread vaccine rollouts and massive government stimulus. Global central banks’ stance also became less dovish. The European Central Bank vowed to scale back its pandemic-related bond-buying activities. Against this backdrop, the Bank of England raised interest rates for the first time in three years. In foreign exchange markets, a strong U.S. Dollar continued to get stronger, posting significant gains against the Euro, the Yen and most other currencies.

### ***Macro Themes***

- Inflation
- New COVID-19 variants
- Shift away from easy monetary policy
- Supply chain bottlenecks

### ***United States***

The U.S. economy recovered from a 3.5% decline in Real GDP in 2020 to 5.7% in 2021. The unemployment rate continued to fall, finishing 2021 at 3.9% compared to a pandemic high of 14.8% high in April 2020 and pre-pandemic average rate of 3.5%. Consumer prices climbed 7.0% in 2021, while core inflation, excluding the volatile food and energy components, rose 5.5%.

U.S. equities were strongly positive, with the S&P 500 and Russell 1000 indices posting returns of (+28.7%) and (+26.5%), respectively. Across market caps, Large Cap, as measured by the S&P 500 (+28.7%), Mid Cap, as measured by the S&P 400 (+24.8%), and Small Cap, as measured by the Russell 2000 (14.8%) all posted double digit returns. Across styles, Growth, as measured by the Russell 1000 Growth (+27.6%) slightly outperformed Value, as measured by the Russell 1000 Value (+25.2%).

U.S. Treasury yields increased in 2021 and the yield curve flattened amid elevated inflation and the shift to more hawkish Federal Reserve. Credit spreads tightened to levels narrower than pre-pandemic levels. Diversified fixed income returned -1.5% (Bloomberg U.S. Aggregate Index), with losses dominated by long U.S. Treasuries at -4.6% (Bloomberg Long Treasury Index) and Credit at -1.1% (Bloomberg Credit Index). Positive returns of 6% were realized in Treasury Inflation Protected Securities (Bloomberg TIPS Index) and of 5.3% in High Yield (Bloomberg High Yield Index 5.3%).

### ***International Developed***

International developed equity markets posted strong results in 2021 but lagged the U.S. equity markets, returning (+11.3%) as measured by the MSCI EAFE. Both Europe and Japanese equities had positive performance in 2021 with MSCI Europe returning (+16.3%) and MSCI Japan returning (+11.7%). European stock rallied more as vaccine rollouts and government stimulus helped lift the Eurozone out of the pandemic induced downturn. The Small Cap portion of international developed markets posted positive, but weaker returns in 2021 (+10.1%) compared with 2020 (+12.3%).

### ***Emerging Markets***

Emerging markets posted weak returns in 2021, underperforming both the U.S. and international developed equity markets. The broad MSCI Emerging Market Index returned (-2.5%) for the year. The underperformance was led by MSCI China Index which returned (-21.7%). Inflationary pressures and a strong US dollar dampened sentiment in developing countries despite higher commodity prices.

The bond markets of emerging markets underperformed in 2021 compared to their outperformance in 2020. Both hard currency and local currency bonds posted negative returns. Hard currency bonds, predominately issued in U.S. Dollars, as represented by the JPMorgan EMBI Global Diversified Index, returned (-1.8%) in 2021. Local currency bonds, represented by the JPMorgan GBI-EM Global Diversified Index, returned (-8.7%) for the year.

### ***Commodities***

The S&P Goldman Sachs Commodity Index (GSCI) jumped 40.4%, largely influenced by a 55.6% increase in oil prices, represented by the New York Mercantile Exchange West Texas Index Crude Spot Index. Precious metals were the laggards in this category, with gold being down over 3% for 2021.

### ***Market Outlook -- 2022***

2022 was off to a difficult start, with most equity markets down in the double digits and some sent into correction territory. Growth-oriented equities were at the epicenter of the pain amid fears of rising rates and a slowing economy. Fixed income markets also had a difficult beginning with most markets are down in the high single digits due to rising interest rates and continued inflation. The only bright spot so far is in the commodities markets.

2022's macroeconomic backdrop will likely be dominated by persistent pandemic driven disruptions, effects from Russia's invasion of the Ukraine, and elevated inflation, all of which are expected to impact economic growth negatively. With global central banks no longer accommodative, the long-term bull market in risk assets and the benign interest rate environment will likely reverse course. Global growth is broadly anticipated to slow with inflation uncertainty and uneven recoveries dominating. Capital market expectations reflect a much more muted outlook for most asset classes.

Household and corporate balance sheets are generally healthy and pent-up demand for services has yet to be fulfilled. The U.S. Federal Reserve and many other central banks have made it clear that taming inflation is now their primary task. Financial conditions are tightening in response, bringing markets out of reliably easy monetary conditions. Supply shortages persist in areas ranging from labor to semiconductors. Despite hopes for continued improvement in 2022, the war in Ukraine has further upended supply chains and sent commodity prices surging. Inflation will likely continue to prompt central banks to push interest rates higher, creating differentiation across and within asset classes.

# METROPOLITAN TRANSPORTATION AUTHORITY OTHER POSTEMPLOYMENT BENEFITS PLAN

## NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

---

### 1. BACKGROUND AND ORGANIZATION

The Metropolitan Transportation Authority (“MTA”) Retiree Welfare Benefits Plan (“Other Postemployment Benefits Plan” or “OPEB Plan” or the (“Plan”) and the related Trust Fund was established effective January 1, 2009 for the exclusive benefit of The MTA Group’s retired employees and their eligible spouses and dependents, to fund some of the OPEB benefits provided in accordance with the MTA’s Group’s various collective bargaining agreements and MTA policies. The MTA Group is comprised of the following current and former agencies:

- MTA New York City Transit
- MTA Long Island Rail Road
- MTA Metro-North Railroad
- MTA Bridges and Tunnels
- MTA Headquarters (“MTAHQ”)
- MTA Long Island Bus
- MTA Staten Island Railway
- MTA Bus Company
- MTA Capital Construction and Development

The Trust is tax exempt in accordance with Section 115 of the Internal Revenue Code. The Plan is classified as a single employer plan for Governmental Accounting Standards Board (“GASB”) Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* (“GASB 74”) purposes.

The MTA is not required by law or contractual agreement to provide funding for the Plan, other than the “pay-as-you-go” amount necessary to provide the current benefits to current eligible retirees, spouses and dependents (Pay-Go).

GASB 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* prescribes uniform financial reporting standards for other postemployment benefits (“OPEB”) plans of all state and local governments. OPEB refers to postemployment benefits other than pension benefits and includes postemployment healthcare benefits which are covered under The MTA OPEB plan.

**Plan Administration** – The Other Postretirement Plan is administered by the Board of Managers, which is comprised of:

the persons holding the following positions:

- (i) the Chairman of the MTA;
  - (ii) the MTA Chief Financial Officer; and
  - (iii) the MTA Director of Labor Relations.
- (a) Designation of Others – Any member of the Board of Managers, serving as such by virtue of holding a position described in (a) of this section, may, by written authorization filed with the Secretary, designate another individual, not then a member, to serve in that member’s stead, in accordance with procedures established with the approval of the Executive Director of the MTA. Any such authorization may be revoked by the designating member at any time in writing filed in the same manner.

Postemployment benefits are part of an exchange of salaries and benefits for employee services rendered. Most OPEB have been funded on a pay-as-you-go basis and have been reported in financial statements when the promised benefits are paid.

**OPEB Funding** - During 2012, MTA funded \$250 million into a Trust allocated between MTA Headquarters and MTA New York City Transit and funded an additional \$50 million during 2013 allocated between MTA Long Island Rail Road and MTA Metro-North Railroad. There have been no further contributions made to the Trust. Since the amount of benefits paid during 2021 exceeds the current market value of assets, a depletion date is assumed to occur immediately. Therefore, the discount rate is set equal to the municipal bond index. MTA elected the Bond Buyer 20-Bond GO Index. As a result, the discount rates as of December 31, 2021 and 2020 are 2.06% and 2.12%, respectively.

**Blended and Age-adjusted Premium  
(in thousands)**

|  | <b>2021</b>            | <b>2020</b>            |
|--|------------------------|------------------------|
|  | <b><u>Retirees</u></b> | <b><u>Retirees</u></b> |
| Total blended premiums                       | \$740,051              | \$655,269              |
| Employment payment for retiree<br>healthcare | <u>52,933</u>          | <u>69,472</u>          |
| Net Payments                                 | <u>\$792,984</u>       | <u>\$724,741</u>       |

The \$52,933 and \$69,472 employer payments for retiree healthcare shown in the preceding table are cash payments in the years 2021 and 2020, respectively. Based on the premium rate structure of NYSHIP, it is part of the employers’ payments for active-employee healthcare benefits; and reflects the higher costs among retirees than actives. The \$52,933 and \$69,472, therefore, is not a payment for active-employee benefits; rather, but represents benefit payment for healthcare coverage for the years 2021 and 2020 for retirees.

**Significant Changes** - This valuation reflects updates to healthcare-related assumptions which decreased plan liabilities by \$1,480.6 million. The discount rate decreased from 2.12% as of December 31, 2020 to 2.06% as of December 31, 2021 based on the Bond Buyer GO 20-Bond Municipal Bond Index, which increased liabilities by \$208.8 million. The net effect of all assumption changes was a decrease of \$738.8 million as of December 31, 2021.

## 2. PLAN DESCRIPTION, ELIGIBILITY AND MEMBERSHIP INFORMATION

The benefits provided by the MTA Group include medical, pharmacy, dental, vision, life insurance and a Medicare supplemental plan. The different types of benefits provided vary by MTA agency and relevant collective bargaining agreements. Certain benefits are provided upon retirement. "Retirement" is defined by the applicable pension plan. Certain MTA Group agencies provide benefits to certain former employees if separated from service within 5 years of attaining retirement eligibility. Employees of the MTA Group are members of the following pension plans: the MTA Defined Benefit Pension Plan ("MTADBPP"), the MTA Long Island Rail Road Plan for Additional Pensions, the Metro-North Cash Balance Plan, the Manhattan and Bronx Surface Transit Operating Authority ("MaBSTOA") Pension Plan, the New York City Employees' Retirement System ("NYCERS") and the New York State and Local Employees' Retirement System ("NYSLERS"). Certain represented employees of Metro-North Railroad participate in the Thrift Plan for Employees of MTA, its Subsidiaries and Affiliates ("401(k) Plan"). Eligible employees of the MTA Group may elect to join the New York State Voluntary Defined Contribution Plan ("VDC").

The MTA Group participates in the New York State Health Insurance Program ("NYSHIP"), and provides medical and prescription drug benefits, including Medicare Part B reimbursements, to many of its retirees. NYSHIP offers a Preferred Provider Organization ("PPO") plan and several Health Maintenance Organization ("HMO") plans. However, represented MTA New York City Transit employees, other MTA New York City Transit former employees who retired prior to January 1, 1996 or January 1, 2001, MTA Staten Island Railway represented employees as of March 1, 2010, June 1, 2010 or January 1, 2013 depending on the union and MTA Bus Company represented employees do not participate in NYSHIP. These benefits are provided through a self-insured health plan, a fully insured health plan or an HMO.

The MTA is a participating employer in NYSHIP. The NYSHIP financial report can be obtained by writing to NYS Department of Civil Service, Employee Benefits Division, Alfred E. Smith Office Building, 805 Swan Street, Albany, NY 12239.

GASB 74 requires employers to perform periodic actuarial valuations to determine annual accounting costs, and to keep a running tally of the extent to which these amounts are over or under funded. The valuation must be performed at least biennially. The most recent biennial valuation was performed with a valuation date of July 1, 2019. The total number of plan participants as of July 1, 2021 receiving retirement benefits was approximately 48,888.

**Plan Eligibility** - Generally, to qualify for benefits under the Plan, a former employee of The MTA must:

- have retired, be receiving a pension (except in the case of the 401(k) Plan and the New York State VDC), and have at least 10 years of credited service as a member of NYCERS, NYSLERS, the MTADBPP, the MaBSTOA Pension Plan, the 401(k) Plan or the VDC and have attained a minimum age requirement (unless within 5 years of commencing retirement for certain members); provided, however, a represented retired employee may be eligible only pursuant to the relevant collective bargaining agreement.
- Surviving Spouse and Other Dependents:
  - (i) Lifetime coverage is provided to the surviving spouse (not remarried) or domestic partner and surviving dependent children to age 26 of retired managers and certain non-represented retired employees.

- (ii) Represented retired employees must follow the guidelines of their collective bargaining agreements regarding continued health coverage for a surviving spouse or domestic partner and surviving dependents. For represented employees of MTA New York City Transit and MTA Staten Island Railway retiring on or after May 21, 2014 for TWU Local 100, September 24, 2014 for ATU Local 726, October 29, 2014 for ATU Local 1056, March, 25, 2015 for TCU and December 16, 2015 for UTU and ATDA, surviving spouse coverage continues until spouse is eligible for Medicare.
- (iii) Lifetime coverage is provided to the surviving spouse (not remarried) or domestic partner and surviving dependents of retired uniform members of the MTA Police Department.
- (iv) Lifetime coverage is provided to the surviving spouse (not remarried) or domestic partner and surviving dependent children to age 26 of uniformed members of the MTA Police Department whose death was sustained while in performance of duty.

Benefits are established and amended by the MTA, except to the extent that they have been established by collective bargaining agreement.

**Plan Membership** - As permitted under GASB 74, the Plan has elected to use July 1, 2021, as the valuation date of the OPEB actuarial valuation. The Plan’s combined membership consisted of the following at July 1, 2021 and July 1, 2019 the date of the most recent OPEB actuarial valuation:

|  | <b>July 1, 2021</b>   | <b>July 1, 2019</b>   |
|--|-----------------------|-----------------------|
| Active Plan members  | 68,672                | 73,588                |
| Inactive Plan members currently receiving Plan benefit payments          | 48,888                | 46,994                |
| Inactive Plan members entitled to but not yet receiving benefit payments | <u>131</u>            | <u>186</u>            |
| Total number of participating employees                                  | <u><u>117,691</u></u> | <u><u>120,768</u></u> |

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** - The Plan’s financial statements are prepared on the accrual basis of accounting under which deductions are recorded when the liability is incurred and revenues are recognized in the accounting period in which they are earned. Employer contributions are recognized when paid in accordance with the terms of the Plan. Additions to the Plan consist of employer contributions and net investment income. Investment purchases and sales are recorded as of trade date.

The financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America, as prescribed by Government Accounting Standards Board (“GASB”).

GASB Statement No. 72, *Fair Value Measurement and Application* (“GASB 72”), requires the Funds to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach, or an income approach. GASB 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset

or liability, either directly or indirectly. Level 3 inputs are unobservable inputs, and typically reflect management’s estimates of assumptions that market participants would use in pricing the asset or liability. GASB 72 also contains note disclosure requirements regarding the hierarchy of valuation inputs and valuation techniques that were used for the fair value measurements.

**New Accounting Standards Adopted** - The Plan did not adopt any new GASB Statement in 2021 and 2020. However, the Plan did update the required year of adoption for GASB Statement No. 92. Refer to Accounting Pronouncements- Not yet adopted but currently being reviewed below for further details.

**Recent Accounting Pronouncements - Not yet adopted but currently being reviewed**

| <b>GASB<br/>Statement No.</b> | <b>GASB Accounting Standard</b> | <b>MTA Welfare<br/>Benefits Plan<br/>Required Year of<br/>Adoption</b> |
|-------------------------------|---------------------------------|--|
| 92                            | <i>Omnibus 2020</i>             | 2022   |

**Investments** - The Plan’s investments are those which are held in the Trust. Investments are reported on the statement of fiduciary net position at fair value based on quoted market prices. Investment income, including changes in the fair value of investments, is reported on the statement of changes in fiduciary net position during the reporting period.

**Benefit Payments** - The Plan Sponsor makes direct payments of insurance premiums for healthcare benefits to OPEB Plan members or beneficiaries. Payments made directly to the insurers by the Plan Sponsor which bypass the trust are treated as additions and deductions from the Plan’s net position. Additionally, premium payments on behalf of retirees have been adjusted to reflect age-based claims cost.

**Administrative Expenses** - Administrative expenses of the Plan are paid for by the Plan.

**4. INVESTMENTS**

**Investment Policy** - The investments of the Trust will be made for the exclusive benefit of the Plan participants and their beneficiaries. Policy guidelines may be amended by the Board of Managers upon consideration of the advice and recommendations of investment professionals.

In order to have a reasonable probability of achieving the target return at an acceptable risk level, the Board has adopted the asset allocation policy outlined below. The actual asset allocation will be reviewed on, at least, annually. The following was the Board of Managers adopted asset allocation policy as at December 31, 2021.

| <b>Asset Class</b>       | <b>Target Allocation<br/>(%)</b> | <b>Policy Benchark</b>                           |
|--------------------------|----------------------------------|--|
| Global Equity            | 35.0                             | MSCI ACWI  |
| Fixed Income             | 18.0                             | Manager Specific                                 |
| Global Asset Allocation* | 30.0                             | 50% World Equity/<br>50% Citigroup WGBI unhedged |
| Absolute Return          | 12.0                             | Manager Specific                                 |
| Real Assets              | 5.0                              | Manager Specific                                 |
| Total                    | 100.0                            |  |

\* The Global Asset Allocation managers will invest across numerous liquid asset classes including: stocks, bonds, commodities, TIPS and REITs.

**Investment Objective** - The investment objective of the Plan is to achieve the actuarial return target with an appropriate risk position.

**Investment Guidelines** - The Board of Managers of the MTA Retiree Welfare Benefits Plan is in the process of creating investment guidelines with the Plan’s investment advisor (“NEPC”) that will address and execute investment management agreements with professional investment management firms to manage the assets of the Plan.

**Interest Rate Risk** - Interest rate risk is the risk that changes in interest rates that will affect the fair value of an investment. Duration is a measure of sensitivity to interest rate risk. The greater the duration of a bond or portfolio of bonds, the greater its price volatility will be in response to a change in interest rate risk and vice versa. Modified duration is an indicator of bond price’s sensitivity to a parallel 100 basis point change in interest rates. No interest rate risk was reported for years ended December 31, 2021 and 2020.

**Credit Risk** - For investments, custodial credit risk is the risk that in the event of the failure of the Trustee Bank, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of the outside party. Investment securities are exposed to credit risk if the securities are uninsured and are not registered in the name of the Trust. No credit risk was reported for years ended December 31, 2021 and 2020.

**Concentration of Credit Risk** - The Plan places no limit on the amount the Trust may invest in any one issuer of a single issue. Individual investments held by the Plan that represents 5.0% or more of the Plan’s net assets available for benefits. No concentration of credit risk was reported for years ended December 31, 2021 and 2020.

**Foreign Currency Risk** - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. Some of the Plan’s investment managers will have foreign currency exposure through holdings of foreign securities, currency derivatives or private investments whose revenue will be non-USD based. No credit risk was reported for years ended December 31, 2021 and 2020.

In year 2015, the MTA Retiree Welfare Benefits Plan adopted GASB Statement No. 72 (“GASB 72”), Fair Value Measurement and Application. GASB 72 was issued to address accounting and financial reporting issues related to fair value measurements. All investments were redeemed and used to pay benefits, other than cash retained to pay expenses. The fair value of investments reported for years ended December 31, 2021 and 2020 were \$83 and \$130 thousand, respectively.

**Other Risks and Uncertainties** - In March 2020, the World Health Organization classified the COVID-19 outbreak as a pandemic. As a result, global financial markets have experienced, and may continue to experience, significant volatility resulting from the spread of COVID-19. The values of the Plan's individual investments have and will fluctuate in response to changing market conditions and therefore, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The extent of the impact of COVID-19 on the Plan's net assets available for benefits and contributions will depend on future developments, including the duration and continued spread of the outbreak. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

In year 2015, the MTA Retiree Welfare Benefits Plan adopted GASB Statement No. 72 (“GASB 72”), *Fair Value Measurement and Application*. The Plan categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Plan have the following recurring fair value measurements as of December 31, 2021 and 2020:

**Investments measured at readily determined fair value (FV)**  
**(\$ In thousands)**

|                             | 2021                 |   |   |   |

| Total debt investments      | 172                  | 172   | -   | -   |

## 5. NET OPEB LIABILITY

The components of the net OPEB liability of the Plan for the years ended December 31, 2021 and 2020 were as follows (in thousands):

|   | <b>December 31,<br/>2021</b> | <b>December 31,<br/>2020</b> |
|---|------------------------------|------------------------------|
| Total OPEB liability  | \$ 24,956,514                | \$ 24,409,581                |
| Fiduciary net position  | 83                           | 130                          |
| Net OPEB liability  | <u>24,956,431</u>            | <u>24,409,451</u>            |
| Fiduciary net position as a percentage<br>of the total OPEB liability | 0.00%                        | 0.00%                        |

The total OPEB liability was determined by an actuarial valuation as of the valuation date, calculated based on the discount rate and actuarial assumptions below, and was then projected forward to the measurement date. Any significant changes during this period have been reflected as prescribed by GASB Statement No.74.

Covered payroll is based on salary information provided as of the valuation date.

### Additional Important Actuarial Valuation Information

|                             | <b>2021</b>       | <b>2020</b>       |

| Actuarial cost method       | Entry Age Normal  | Entry Age Normal  |
| Normal cost increase factor | 4.25%             | 4.25%             |

**Discount Rate** – 2.06% per annum as of December 31, 2021 (Bond Buyer General Obligation 20-Bond Municipal Bond Index) and 2.12% per annum as of December 31, 2020.

|  | <b>2021</b> | <b>2020</b> |
|--|-------------|-------------|
| Discount rate  | 2.06%       | 2.12%       |
| Long-term expected rate of return, net of investment expense | 2.06%       | 2.12%       |
| Bond Buyer General Obligation 20-Bond Municipal Bond Index   | 2.06%       | 2.12%       |

The Plan's fiduciary net position was not projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the Plan's fiduciary net position is

projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payments, to the extent that the Plan's fiduciary net position is not projected to be sufficient.

**Sensitivity of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rate**

The following presents the net OPEB liability of the Authority, calculated using the discount rate of 2.06 percent; as well as what the Authority's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.06 percent) or 1-percentage point higher (3.06 percent) than the current rate:

**Calculation on Money-Weighted Rate of Return**

The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the middle of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow in each month. The money-weighted rate of return is calculated net of investment expenses.

**2021 Schedule of Calculations of Money-Weighted Rate of Return**

(in dollars)

|                                   | <b>Net External<br/>Cash Flows</b> | <b>Periods<br/>Invested</b> | <b>Period<br/>Weight</b> | <b>Net External<br/>Cash Flows<br/>With Interest</b> |

| Money-Weighted Rate of Return     | -32.92%                            |                             |                          |  |

**Calculation on Long-Term Expected Rate of Return**

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are per Milliman's investment consulting practice as of December 31, 2021 and 2020.

**SCHEDULE OF LONG TERM EXPECTED RATE OF RETURN FOR 2021**

\* Based on March 2014 Investment Policy

### 6. OPEB ACTUARIAL COSTS AND ASSUMPTIONS

Projections of benefits for financial reporting purposes are based on the substantive OPEB plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The MTA may not be obligated to provide the same types or levels of benefits to retirees in the future.

**Actuarial Assumptions** - The non-healthcare assumptions described below were adopted by the Authority based on experience analyses covering the period from January 1, 2012 – December 31, 2017 dated October 4, 2019 for members of the MaBSTOA Pension Plan and the MTA DB Plan, in addition to a postretirement mortality study covering the period from January 1, 2015 – December 31, 2020 dated April 21, 2022. In addition, demographic assumptions are based on those used in the most recent NYCERS or NYSLRS actuarial valuations for MTA employees participating in these city-wide or state-wide pension plans.

**Actuarial Cost Method** - In accordance with GASB 74, the Entry Age Normal cost method was used for determining service costs and the actuarial accrued liability. Costs are determined as a level percent of pay.

Census data was collected as of July 1, 2021, which is the valuation date. Liabilities as of December 31, 2021 were determined using roll-forward methods, assuming no liability gains and losses. Past and future normal costs were assumed to increase 4.25% per year.

**Significant Changes** - This valuation reflects updates to healthcare-related assumptions which decreased plan liabilities by \$1,480.6 million. In addition, it also reflects updates to the mortality assumptions in accordance with a mortality experience study dated April 21, 2022 and demographic assumptions for Headquarters members participating in the New York State and Local Employee's Retirement System, which increased plan liabilities by \$533.0 million. Furthermore, the discount rate decreased from 2.12% as of December 31, 2020 to 2.06% as of December 31, 2021 based on the Bond Buyer GO 20-Bond Municipal Bond Index, which increased liabilities by \$208.8 million. The net effect of all assumption changes was a decrease of \$738.8 million as of December 31, 2021.

**Changes since Prior Valuation** - The discount rate has been changed from 2.12% as of December 31, 2020 to 2.06% as of December 31, 2021 due to changes in the applicable municipal bond index.

Mortality rates were updated based on the latest experience study. Study Demographic assumptions for Headquarters members were updated based on latest NYSLRS assumptions.

**Inflation Rate** - 2.25% per annum compounded annually.

**Per Capita Claim Costs (“PCCC”)** - For members that participate in NYSHIP, Empire PPO plan premium rates paid by Participating Agencies for 2021 were adjusted to reflect differences by age in accordance with Actuarial Standard of Practice No. 6. Premiums paid by Participating Agencies differ based on Medicare-eligible status whereas premiums paid by Participating Employers do not. The age adjustments were based on manual rates developed from Milliman’s Commercial Rating Structures and Ages 65 and Over Health Cost Guidelines® (HCGs), Empire PPO plan design information, and actuarial judgment. Pre- and post-65 NYSHIP premium rates were adjusted separately to be consistent with the way in which demographic factors were developed. These per capita costs may be loaded to account for Agency specific coverage election assumptions. The Medicare Part B premium is not included. For spouses and beneficiaries under age 65, the age-adjusted premiums shown below are increased by 15% to reflect the additional cost of covered children.

**Age Adjusted Monthly NYSHIP Empire PPO Premiums**

| <b>Age Group</b> | <b>Males</b> | <b>Females</b> | <b>Age Group</b> | <b>Males</b> | <b>Females</b> |
|------------------|--------------|----------------|------------------|--------------|----------------|
| <50              | 1,268.23     | 1,866.14       | 65 - 69          | 456.75       | 434.77         |
| 50 - 54          | 1,419.46     | 1,584.95       | 70 - 74          | 549.71       | 498.36         |
| 55 - 59          | 1,529.66     | 1,571.69       | 75 - 79          | 603.15       | 524.56         |
| 60 - 64          | 1,846.56     | 1,766.14       | 80 - 84          | 625.78       | 537.34         |
|                  |              |                | 85+              | 633.41       | 540.57         |

For the self-insured medical and pharmacy plan administered by MTA New York City Transit, PCCCs were determined for 2021 based upon a combination of MTA claim experience, MTA census data, MTA plan design information, manual rates from the Milliman Commercial Rating Structures and Ages 65 and Over Health Cost Guidelines® (“HCGs”), and actuarial judgment.

MTA and the carrier provided Milliman with summarized medical (Aetna Basic and Aetna Select plans) and pharmacy claim experience (Employer Group Waiver Plan (“EGWP”) and non-EGWP plans), split between those eligible and not eligible for Medicare, for covered retirees of MTA Bus Company, MTA New York City Transit, and MTA Staten Island Railway for 2021. In addition, the MTA provided associated premium rates for each of the plans. Enrollment data was based on covered members provided by MTA as of the valuation date. Milliman used the HCGs to develop PCCC relativity factors that varied by benefit, age and gender. Finally, per capita costs were adjusted by an administrative load. Administrative costs were provided on a per contract basis by MTA and were \$14.82 per month for Aetna Basic under 65, \$12.43 for Aetna Select and \$12.37 for Aetna Basic 65 and over.

For spouses and beneficiaries under age 65, the PCCCs shown below reflect a 20% increase to reflect the additional cost of covered children.

EGWP PCCCs are based on the premium equivalents provided reflecting the Medicare subsidies available to this plan. Relativity factors varying by age and gender are based on Medicare slopes developed by Milliman.

In addition, PCCCs were developed for the Aetna Medicare plans based on the premium equivalents provided and reflecting relativity factors by age and gender based on Medicare slopes developed by Milliman. The following charts detail the monthly 2021 PCCCs used in this valuation.

Monthly Medical Per Capita Claim Cost

| <u>Age Group</u>        | <u>Male Retirees</u> | <u>Female Retirees</u> | <u>Male Spouses</u> | <u>Female Spouses</u> |

| 85+              | 186.63               | 153.66                 | 186.63              | 153.66                |

Monthly Medicare Part B premiums were assumed to be \$148.50 and \$144.60 for 2021 and 2020.

Premium rates for dental and vision benefits were used as provided by the Agencies.

**Health Cost Trend** - The healthcare trend assumption is based on the Society of Actuaries-Getzen Model version 2021 utilizing the baseline assumptions included in the model, except inflation of 2.25% for medical and pharmacy benefits. Further adjustments apply based on percentage of costs associated with administrative expenses, inflation on administrative costs, and aging factors. For NYSHIP benefits, trends are multiplied by 90% to reflect that NYSHIP trends have been generally lower than trends projected by the Getzen model over the past 10 years. Separate long-term trends are used for Medicare Part B reimbursements and for dental and vision benefits (3.5% per year). The selfinsured trend is applied directly for represented employees of NYC Transit, SIRTOA and MTA Bus Company. No self-insured post-65 trend is assumed during 2021 to reflect the approximately 90% reduction in the contracted Medicare Advantage plan premiums for 2022. The following lists illustrative rates for the NYSHIP and self-insured trend assumptions (amounts are in percentages).

### Health Care Cost Trend Rates

| Fiscal Year  | NYSHIP |      | TBTA No Rx |      | Self-Insured |      | Medicare Part B |
|--------------|--------|------|------------|------|--------------|------|-----------------|

| 2070 to 2071 | 3.5    | 3.5  | 3.5        | 3.5  | 3.9          | 3.9  | 3.7             |
| 2080 to 2081 | 3.3    | 3.3  | 3.3        | 3.3  | 3.7          | 3.7  | 3.7             |
| 2090 to 2091 | 3.3    | 3.3  | 3.3        | 3.3  | 3.7          | 3.7  | 3.6             |
| 2100 to 2101 | 3.3    | 3.3  | 3.3        | 3.3  | 3.7          | 3.7  | 3.6             |

For purposes of applying the Entry Age Normal cost method, the healthcare trend prior to the valuation date are based on the ultimate rates, which are 3.3% for NYSHIP costs, 3.7% for self-insured medical and pharmacy costs, and 3.6% for Medicare Part B costs.

**Participation** - The table below summarizes the census data provided by each Agency utilized in the preparation of the actuarial valuation. The table shows the number of active and retired employees by Agency and provides a breakdown of the coverage elected and benefits offered to current retirees.

OPEB Participation By Agency as at July 1, 2021

\* MTA LI Bus had 79 vestees as of date of valuation

**Coverage Election Rates** — The majority of members participating in NYSHIP are assumed to elect coverage in the Empire PPO plan. For certain agencies (MTA New York City Transit, MTA Bridges and Tunnels and MTA Staten Island Railway) a percentage of the membership is assumed to elect NYSHIP HIP plan and for the MTA Metro-North Railroad a percentage is assumed to elect ConnectiCare, an HMO plan.

**Dependent Coverage** - Spouses are assumed to be the same age as the employee/retiree. 80% of male and 35% of female eligible members participating in NYSHIP are assumed to elect family coverage upon retirement and 65% of male and 25% of female eligible members participating in self-insured programs administered by MTA New York City Transit are assumed to cover a dependent. Actual coverage elections for current retirees are used. Under age 65 spouses of over age 65 retirees are assumed to have elected the Aetna Select plan if the retiree elected Aetna Option 1 or Option 2.

### Demographic Assumptions:

*Mortality* — All mortality rates (except accidental death for active police members) are projected on a generational basis using the Society of Actuaries Mortality Improvement Scale MP-2021. As generational tables, they reflect mortality improvement both before and after the measurement date. The post-retirement mortality assumption is based on an experience analysis covering the period from January 1, 2015 to December 31, 2020 for the MTA-sponsored pension plans. The mortality rates vary by employee type:

- i) Headquarters Non-Police Members: PubG.H-2010 Mortality Table, headcount weighted for general employees for males and females with separate rates for employees, healthy annuitants and disabled annuitants.
- ii) Headquarters Police Members: Rates from the June 30, 2019 (Lag) Actuarial Valuation for NYCERS dated December 29, 2021 as follows: Service Retirees for Housing Police and Transit Police, Disabled Retirees for Housing Police and Transit Police and Active Members for Transit and TBTA Ordinary Death and Accidental Death. No adjustments were made to convert from lives-weighted to amounts-weighted. Base year is 2012 for mortality improvement purposes.
- iii) Rail Members (MTA Long Island Bus, LIRR, Metro-North, and SIRTOA): Pri.H-2012(BC) Mortality Table, headcount weighted with blue collar adjustments for males and females with separate rates for employees, healthy annuitants and disabled annuitants. Employee and healthy annuitant male rates are multiplied by 97%.
- iv) Transit Members (Bridges and Tunnels, MTA Bus, and Transit): Pri.H-2012(BC) Mortality Table, headcount weighted with blue collar adjustments for males and females with separate rates for employees, healthy annuitants and disabled annuitants. Employee and healthy annuitant male rates are multiplied by 92%.

**Vestee Coverage** — For members that participate in NYSHIP, Vesteers (members who have terminated employment, but are not yet eligible to retire) are eligible for NYSHIP benefits provided by the Agency upon retirement, but must maintain NYSHIP coverage at their own expense from termination to retirement. Vesteers are assumed to retire at first eligibility and would continue to maintain NYSHIP coverage based on the following percentages. This assumption is based on the Development of Recommended Actuarial Assumptions for New York State/SUNY GASB 45/75 Valuation report provided to Participating Employers of NYSHIP. These percentages were also applied to current vesteers based on age at valuation date.

| <b>Age at Termination</b> | <b>Percent Electing</b> |
|---------------------------|-------------------------|
| < 40                      | 0 %                     |
| 40–43                     | 5                       |
| 44                        | 20                      |
| 45–46                     | 30                      |
| 47–48                     | 40                      |
| 49                        | 50                      |
| 50–51                     | 80                      |
| 52+                       | 100                     |

**7. TRUSTEE, CUSTODIAL AND OTHER PROFESSIONAL SERVICES**

The Plan and the Trust are administered by the MTA, including the day-to-day administration of the health insurance program. JP Morgan Chase, the trustee and custodian makes payments to health insurers and to welfare funds for retiree benefits, and reimbursements of retiree Medicare Part B premiums, as directed by the MTA. The MTA OPEB Board of Managers is advised by NEPC with respect to the investment of Plan assets. Actuarial services were provided to the Plan by Milliman Inc.

**8. SUBSEQUENT EVENTS**

In preparing the financial statements for the year ended December 31, 2021, subsequent events were evaluated through January 12, 2023, the date the financial statements were available to be issued. In May 2022, the Plan settled its lawsuit relating to the AllianzGI Structured Alpha Funds in the United States District Court for the Southern District of New York (1-20-cv-07842 [rel. 1-20-cv-5615] (KPF)).
