### MEDIA ADVISORY: LIRR Customers Are Advised to Expect Canceled Trains, Delays for Tuesday AM Rush, November 25

MTA Long Island Rail Road customers are advised to anticipate schedule changes that include canceled trains and delays tomorrow (Tuesday) morning as a result of a derailment that occurred in Jamaica on Sunday.

Over 200 LIRR employees have been working round-the-clock to re-rail the three train cars on the west end of Jamaica Station. The work also includes repair to the damaged switches and track caused by the derailment. Currently, three tracks remain out of service due to the accident.

"We are grateful to our customers for their patience during this time," said LIRR President Helena Williams. "The Monday evening rush hour went smoothly under the circumstances. Our LIRR crews have been working nonstop to repair damaged rail and switches so that we can resume normal operations as soon as is safely possible. We are making progress and will keep our customers updated on our efforts."

The Tuesday AM Rush service plan includes cancellation of 12 westbound AM rush trains. As a result, there will be residual delays from added station stops and not all scheduled connections will be available at Jamaica Station to Penn Station, Flatbush Avenue-Brooklyn, Hunterspoint Avenue, and Long Island City. LIRR station personnel will be available at Jamaica to assist customers with service information. The modified plan also includes service changes for the eastbound AM Rush – in particular 9 of the 15 eastbound reverse peak trains from Flatbush Avenue Brooklyn will be canceled.
