IMMEDIATE

No Weekend AC45 Service at Fulton Street/Broadway-Nassau Complex

No Transfers Available Between 23 and J Shuttle

Due to ongoing construction of the Fulton Street Transit Center, the following service changes will be in effect for the weekend beginning at 12:01 a.m. Saturday, March 20 through 5 a.m. Monday, March 22:

- There will be no A service at Fulton Street/Broadway-Nassau. The A will be on its regular route making most local stops, but will bypass Fulton Street/Broadway-Nassau. C service will be suspended.
- There will be no 45 service at Fulton Street/Broadway-Nassau. A special J shuttle replaces the 45 between Manhattan and Brooklyn and will stop at Fulton Street/Broadway-Nassau.
- An out-of-system walking transfer will be available between the A at Chambers Street/Park Place/World Trade Center and the 4 and the J shuttle at Chambers Street/Brooklyn Bridge.

AC Service

There will be no C train service this weekend. A trains will bypass Fulton Street/Broadway-Nassau in both directions. For connection to the A train, customers may take the 23 to Park Place/Chambers Street/World Trade Center and transfer to the A. Customers may also take the J shuttle to Chambers Street-Brooklyn Bridge and use the free out-of-system walking transfer to the A at Chambers Street/Park Place/World Trade Center.

J Shuttle Train Replaces 45 Service Between Manhattan and Brooklyn

There is no 4 train service between Brooklyn Bridge and Utica Avenue and there is no 5 service between Grand Central-42nd Street and Bowling Green. In Brooklyn, the 3 makes regular stops to Utica Avenue/New Lots Avenue and the 2 trains make regular 5 stops to Brooklyn College/Flatbush Avenue. J shuttle trains provide another alternate service into Brooklyn. Please note that there will be an out-of-system transfer between the 23 and the J shuttle at Fulton Street.

Customers at Fulton Street/Broadway-Nassau needing the uptown 4 train, may use the J shuttle train from Fulton Street and transfer to a 4 at Chambers Street-Brooklyn Bridge. Uptown 5 service is available from Grand Central-42nd Street. For Brooklyn-bound 4 service, customers may take Brooklyn-bound 23 trains at Fulton Street or use a J shuttle into Brooklyn and connect to the 23 at Atlantic Avenue.

The J shuttle will operate between Essex Street and Prospect Park making the following stops:

- Delancey Street-Essex Street F
- Bowery
- Canal Street NQR6
- Chambers Street-Brooklyn Bridge 46 (out-of system transfer to Chambers St. A)
- Fulton Street 23 (out of system transfer; no AC or 45 service)
- Broad Street
- Court Street R
- Lawrence Street R
- DeKalb Avenue QR
- Atlantic Avenue 23DQNR (J shuttle stops at Q platform)
- 7th Avenue Q
- Prospect Park Q

The Fulton Street Transit Center

Some of the work being done at Fulton Street/Broadway-Nassau during this weekend includes reinforcing existing and installing additional ceiling beams along the AC platform. There will also be elevator work, which consists of digging the pits on the AC platform and at least partially constructing the shafts up through all levels of the station.

For more information on the construction project itself, log on to www.mta.info. Once at the home page, click on Capital Construction (under "MTA Agency Links"), then click on Fulton Street Transit Center under Programs.

MTA NYC Transit apologizes for any inconvenience to our customers. Service changes at Fulton Street-Broadway Nassau station will continue for most weekends through October. As weekends approach, customers should look for in-station posters or call NYC Transit's Travel Information Center at 718 330 1234 or log on at www.mta.info for alternate routes, out of station transfers and other information.
