MTA LIRR Port Jefferson Branch Mid-Day Service Affected By Rail Inspections Wednesday March 31 And Thursday April 1

Buses Replace Trains For Affected Customers

The MTA Long Island Rail Road will provide bus service in place of trains on the Port Jefferson Branch during the mid-day of Wednesday March 31st and Thursday April 1st. Track inspections will be made by the Sperry Rail Car between 9:56 AM and 3:45 PM on Wednesday, and between 9:56 AM and 2:30 PM on Thursday respectively.

The Sperry Rail Car, a bright yellow vehicle fitted with ultrasonic and induction test equipment, is designed to detect internal rail defects not readily visible to the eye. Defects that are found will be corrected immediately by a crew of LIRR track maintenance workers. The Sperry Rail Car is used twice a year to inspect approximately 500 miles of LIRR track.

While the Sperry Rail Car testing is performed between Huntington and Port Jefferson buses will replace some east and westbound mid-day trains. Customers should expect 15 to 37 minutes additional travel time.
