IMMEDIATE

New Canaan Branch Weekday Off-Peak Busing

For March 15-April 1

MTA Metro-North Railroad will replace weekday off-peak New Canaan Branch train service with buses for three weeks while track maintenance workers conduct cyclical brush-cutting alongside our right-of-way. Periodic pruning is essential for safe train operations to assure good sight lines and to minimize potential damage from falling branches.

Beginning Monday, March 15 through Thursday, April 1, from 9 a.m. to 4 p.m., buses will follow train schedules. Normal service resumes on Good Friday to accommodate an expected increase in off-peak ridership
