Installation of New Dock Means Buses Next Week For Haverstraw-Ossining Ferry

Bus service will operate in lieu of ferry service between Haverstraw and Ossining from June 20 to June 24, 2011 to accommodate construction of a new ferry dock at Ossining.

All buses will operate between the Tarrytown Station and the ferry parking lot in Haverstraw.

In the morning, buses will operate from Haverstraw to Tarrytown from 5:50 AM to 8:50 AM and in the evening buses will connect with trains from Grand Central Terminal to Tarrytown from 3:48 PM to 8:34 PM., for service to Haverstraw. The bus will add 15 to 20 minutes to the trip. Check the [bus schedule](#) on line or at the ferry terminal.

The new, larger and heavier dock, which is being built with wider ramps for faster embarking and disembarking of customers, also will provide more stability during inclement weather.

Assemblywoman Sandra Galef of Ossining secured \$250,000 for the new floating dock and the New York State Department of Transportation provided an additional \$250,000.

Ferries meet six trains in the morning and nine trains in the evening and carry about 450 to 500 people a day. The Haverstraw-Ossining ferry has been in operation since 2000. Service is provided by NY Waterway, under contract to Metro-North. This service is a critical component of the regional transportation network serving Rockland and Westchester counties.
