LIRR Expects To Operate A Regular PM Rush Tonight

The MTA Long Island Rail Road expects to operate a regular evening rush hour tonight. LIRR employees are continuing the repairs to the earlier severed signal lines at Jamaica. Work, however, has progress to the point that the scattered delays and canceled/combined trains expected for tonight's PM rush have been rescinded.

For additional information, customers should consult the MTA website, www.mta.info and monitor television and radio traffic reports. Customers can also contact the LIRR's Travel Information Center at 718-217-5477 (718-217-LIRR). If you are deaf or hard of hearing, use your preferred relay service provider or the free 711 relay to reach the LIRR at 718-217-5477.
