### **SPECIAL TRAFFIC ADVISORY Portion of Throgs Neck Bridge Queensbound Center Lane Will Be Closed Round-The-Clock Beginning Fri., Nov. 4th For Necessary Asphalt Replacement Work**

#### ***Over Dimensional Vehicles Restricted During Overnight Hours; Must Use Alternate Route***

A portion of the center lane roadway at the Throgs Neck Bridge will be closed to traffic round-the-clock beginning **10 p.m. Friday, Nov. 4th** while new asphalt and binder is applied to the roadway. The closure is necessary in order to apply an orthotropic deck binder membrane and a place a new asphalt wearing surface to a portion of the roadway about one-third of a mile long.

The work, which is dependent on dry weather and temperatures above 40 degrees, is expected to take approximately two weeks to complete. Motorists should expect delays and, if possible, use the Bronx-Whitestone Bridge as an alternate.

In addition, the right southbound lane into Queens will also be closed from **10 p.m. to 5 a.m. weekdays** and **10 p.m. to 7 a.m. on weekends**. During this time, over dimensional vehicles driving southbound to Queens will not be permitted at the Throgs Neck Bridge and must use an alternate route.
