### Expect delays for LIRR PM rush

#### *Amtrak Working to Repair Track Condition in Key Eastbound Tunnel*

Due to a track condition in one of the East River tunnels, LIRR is anticipating significant delays during the PM Rush. Customers who can are advised to take one of the extra Passover trains, the last scheduled to run at 3:48 PM. The track condition, which is blocking a key eastbound tunnel also used by the LIRR, is likely to result in delays and canceled trains during today's evening rush. For additional information, customers should consult the MTA website, [www.mta.info](http://www.mta.info) and monitor television and radio traffic reports.

Customers can also contact the LIRR's Travel Information Center at 718-217-5477 (718-217-LIRR). If you are deaf or hard of hearing, use your preferred relay service provider or the free 711 relay to reach the LIRR at 718-217-5477.
