# Service Advisory Weekend Subway Changes Affecting Service on the 1 2 3 4 6 7 A C D E F G L M N R Q S

### *New 'Weekender' Web Feature Begins Today*

Customers may visit our website at [www.mta.info](http://www.mta.info) and check out "The Weekender," a new feature of MTA.info which will take over the front page of MTA.info each weekend beginning this afternoon. The Weekender makes it easy for subway riders to visualize exactly how weekend work will affect subway service.

The centerpiece of The Weekender is a subway diagram that displays the service to be provided each weekend, including all service changes. Stations impacted by service diversions are highlighted by blinking icons. Users click to choose one of three ways to view the map:

**Service by Line:** Click on a subway line symbol to get a line diagram showing an overview of the line's service changes, as well as text summaries of the changes.

**Service by Borough:** Click on a borough for text-based information about any service changes impacting a borough.

**Service by Station:** Select a station for details on any service changes impacting that station, or click on the map to zoom to a detailed area.

### **Remember, TripPlanner+ provides information that takes weekend service diversions into account.**

These weekend changes are taking place because of capital construction work on the MTA New York City Transit subway system. This work is part of NYC Transit's ongoing Capital Rebuilding Program aimed at upgrading and maintaining our tracks, stations and signal systems in order to continue to provide our customers with safe and reliable service. For more information on the 2010-2014 Capital Program log on to [www.mta.info/capital](http://www.mta.info/capital).

**Customers who rely on these lines should allow for additional travel time.**
