Restrictions

Customer must use LIRR code at time of purchase. Not valid with other discounts or on previously purchased tickets. All sales are final; no refunds or

exchanges. Offer redeemable for Tuesday Value and Classic games throughout the 2011 season. Standard ticket processing fees apply. And remember, with speedy, reliable service that lets you avoid traffic tie-ups and parking fees, the Long Island Rail Road is the best way to **all** Mets home games.

Direct train service to the ballpark is available from Penn Station, Woodside, and all stations on the Port Washington Branch. The ride from Penn Station is just a quick 19 minutes and affords you the company of your fellow Mets fans. The ballpark is just 17 minutes from Great Neck and 27 minutes from Port Washington. For those traveling from Long Island on other branches, fans can reach Citi Field by changing at Woodside, just a five-minute ride from the stadium.

Regularly scheduled Port Washington Branch trains will make stops at the Mets-Willets Point Station throughout the regular season for all games - including weekend games, weeknight games and weekday games.

A Note About Accessibility for the Disabled

The Mets-Willets Point Station is not handicapped accessible. The subway Flushing Line Mets-Willets Point station is accessible via the Queens-bound local platform, with an ADA-compliant ramp connecting to the sidewalk on the south side of Roosevelt Avenue. LIRR Customers with mobility impairments who are traveling to see the Mets should travel to Woodside Station. At Woodside Station, which has elevators, customers should transfer to a Flushing-bound #7 subway train to the Mets-Willets Point subway stop, and then use the ramp to reach Roosevelt Avenue, across from the ballpark. To return to Woodside after the game, customers with mobility impairments should board the #7 subway and travel one stop east to its end point, the Flushing-Main Street Station. There, after a brief wait on the train, the train will head west to Woodside. This is necessary due to the location of the ramp, which will only permit access to the eastbound platform.
