### MTA LIRR Snow Service Plan For Wednesday AM Rush, January 12

#### *Changes Affect Discount/Refund and Ticket Validity Policies*

#### **MTA LIRR Snow Service Plan For Wednesday AM Rush, January 12**

**LIRR to Operate Significantly Reduced Weekday AM Rush Schedule Including:**

##### ***23 westbound AM Rush Trains Canceled***

##### ***Extremely Limited Train Service in Diesel Territory***

As a result of the snowfall from the Nor'easter, the MTA Long Island Rail Road plans to operate a significantly reduced weekday AM Rush schedule.

The limited weekday train service includes the cancelation of 23 westbound AM rush trains and extremely limited train service in the LIRR's diesel territory. Additionally, there will be no diesel train service east of Speonk on the Montauk Branch and east of Ronkonkoma on the Main Line to Greenport.

The Railroad's aim is always to keep as much train service operating as possible on all branches. But to ensure customer and employee safety, **service may be temporarily suspended if snow continues to accumulate through morning service and accumulations reaches 10 to 13 inches**. These suspensions will permit our employees to make maximum use of snow removal equipment to clear drifting snow and ice from our tracks, switches and train yards so safe and reliable service can be restored.

If customers are planning to travel, they are urged to check on LIRR service before heading to train stations by monitoring the MTA website, [www.mta.info](http://www.mta.info), listening to the latest news broadcasts and traffic reports and/or signing up for our free E-Alerts that provide the latest train information direct from the LIRR train operations center.

#### **AM Peak Train Cancellations:**

The 23 canceled westbound AM rush hour trains include:
