IMMEDIATE

Weekend Busing on New Canaan Branch, March 26-27

Substitute busing will be in effect on the New Canaan Branch on Saturday, March 26 and Sunday, March 27. Buses will follow train schedules.

Busing is being done to allow for the installation of concrete ties on the main New Haven Line, which will block access to the branch. While the track is out of service, Metro-North's power department will use the outage to perform maintenance and repairs of the overhead wires on the branch. About 500 customers use the branch each weekend day.

Metro-North appreciates the patience shown by its customers during this and all service changes. For more information, call (212) 532-4900.
