IMMEDIATE

Kappock Street Exit From Bronx-bound Upper Level Of Henry Hudson Bridge Closed Two Weeks Beginning Mon., March 12th

The Kappock Street exit from the Bronx-bound upper level of the Henry Hudson Bridge will be closed beginning Mon., March 12th for necessary construction work to install a new safety attenuator at this site.

Motorists should follow posted detour signs or use the 232nd or 235th Street exits.

An attenuator, also called a safety cushion, helps reduce damage to vehicles and motorists by absorbing impact during a motor vehicle crash.

The work is scheduled to be completed within two weeks.
