Hudson Line Gets New Timetable August 27

Weekend Switch Work Completed and Schedules Revert

Most weekend Hudson Line trains traveling between Cortlandt and Poughkeepsie stations will see their schedules revert to the pre-July 2nd timetable departure times when a new timetable takes effect on August 27.

The first weekend day of this timetable is September 1.

This change reflects completion of a major switch construction project at Croton- Harmon, which had required schedule adjustments of up to three minutes earlier or later.

Pick up a new August 27th timetable for details or visit Metro-North's schedules page for more information.
