[NYC Transit](#)

IMMEDIATE

No Direct Service on the D Line to/from Coney Island-Stillwell Avenue

In Effect From July 6 to July 23

MTA New York City Transit announces a major switch and track reconstruction project south of the Bay 50th Street station in Brooklyn. This will necessitate a temporary suspension of service for 16 days on the West End D line to and from Coney Island-Stillwell Avenue during the month of July. At all times, from 10 p.m. Friday, July 6 to 5 a.m. Monday, July 23 there is no D service between Coney Island-Stillwell Avenue and Bay Parkway. Additionally, on the weekends of July 7-8, 14-15 and 21-22, there is no D service between Coney Island-Stillwell Avenue and the 62nd Street DN station.

Shuttle bus service will operate between Bay Parkway and Stillwell Terminal serving 25th Avenue and Bay 50th Street at all times including rush hours. During the weekends, service is suspended between 62nd Street and Coney Island-Stillwell Avenue from 9 a.m. to 8 p.m. on Saturdays and Sundays. Free shuttle buses will be available making all station stops. Customers may transfer between the shuttle bus and D or N trains at 62nd Street.

Street closures will be required between the hours of 5 a.m. and 9 p.m. daily until the completion of this project. Track crews will open the street to traffic between 9 p.m. and 5 a.m. nightly. Parking will be restricted on the west and east curb lanes. Local residents and businesses can make arrangements with on-site supervision for access to residences and deliveries.

During the 16-day shutdown, track workers will remove and install tracks and switches between Bay 50th Street and Stillwell Terminal. In addition, maintenance forces will perform various jobs such as correcting track defects and replacing track components that have reached the end of their useful life. This work is necessary to ensure safe and reliable track infrastructure to support our subway service.
