### FASTRACK Returns to the Upper East Side

#### 4 Trains Will Run Local Between 125th Street and Grand Central

On Monday, May 20, MTA New York City Transit brings *FASTRACK* back to the Upper East Side of Manhattan on the **4** **5** **6** Lines – this time to perform maintenance work in the lower level **express** tunnels. Nightly **4** local service begins early from 10 p.m. until 5 a.m., for three consecutive weeknights from Monday, May 20 to early Thursday morning, May 23 between 125<sup>th</sup> Street and Grand Central-42<sup>nd</sup> Street **in both directions**. **[5]** service in Manhattan will end early each night. However, **5** trains will run in the Bronx between Dyre Avenue and East 180<sup>th</sup> Street all night.

Travel alternatives for **5** service:

- 2** trains provide alternate service between East 180<sup>th</sup> Street and 149<sup>th</sup> Street-Grand Concourse. Customers may transfer between the **2** and **5** at East 180<sup>th</sup> Street.
- 4** trains provide alternate service between 149<sup>th</sup> Street-Grand Concourse and Bowling Green. Customers may transfer between the **2** and **4** at 149<sup>th</sup> Street-Grand Concourse.

The section of the Lexington Avenue line between 51<sup>st</sup> Street and 96<sup>th</sup> Street is on two levels. Local trains are on the upper level and express trains are on the lower level. During the previous Lexington Avenue Line *FASTRACK* in March, local service was suspended on this four-mile long segment. A contingent of maintenance workers descended to the local tracks where they were able to inspect signals and switches, repair and replace track rails and cross ties, repair water damage, clean drains and track floors and perform elevator and escalator repair work. In addition, they were also able to perform high-intensity station cleaning which brought a visible improvement to the station environment.

*FASTRACK* was introduced in January 2012, devoting a number of straight weeknights to perform maintenance work in tunnels, stations and on tracks, completely suspending service within a given line segment for a seven-hour period between 10 p.m. and 5 a.m. This gives free access to the system, allowing an army of maintenance workers to perform dozens of tasks without the concern of having to “clear up” to allow trains to pass.

The new *FASTRACK* corridors for 2013 include: the Broadway **N** **Q** **R** south of Queensboro Plaza to Court Street; the **A** line between 168<sup>th</sup> Street and 207<sup>th</sup> Street in Upper Manhattan, the **D** Concourse Line between 161<sup>st</sup> and 205<sup>th</sup> Street; and the Lexington Avenue **4** **5**, and **6** local and express lines between Grand Central-42<sup>nd</sup> Street and 125<sup>th</sup> Street.

*FASTRACK* projects are also scheduled for the Sixth/Eighth Avenue Lines **A** **B** **C** **D** between 59<sup>th</sup> Street-Columbus Circle and 168<sup>th</sup> Street-Bowling Green and 161<sup>st</sup> Street; Nassau Street-Broad Street-Essex Street on the **J**; the Fourth Avenue line **D** **N** **R** between 36<sup>th</sup> Street and 95<sup>th</sup> Street in Brooklyn and the **2** along Nostrand Avenue between Franklin and Flatbush Avenues.

These *FASTRACK* efforts have been designed around the careful determination that there is adequate alternate means of transportation, including enhanced services along some bus lines during work periods. Alternative transportation options will be detailed in announcements and posters on trains, in stations and on selected buses; brochures will be available in both English and Spanish. Information on this *FASTRACK* is available by clicking [here](#).

Our next *FASTRACK* overnight closure will be on the     lines between 5<sup>th</sup> Avenue-53<sup>rd</sup> Street on the  and  to Roosevelt Avenue and between 21<sup>st</sup> Street-Queensbridge  to Roosevelt Avenue, June 3 – 7.
