MTA ADVISORY: Video of NYC Transit Storm Preparations Now Available on YouTube

MTA New York City Transit's Subways maintains a fleet of snow and ice-busting equipment designed to keep outdoor tracks and the third rail clear of snow and ice during harsh winter weather. The fleet includes super-powered snow throwers, jet-powered snow-blowers, and specially-built de-icing cars, all designed to keep service moving. You can view video of equipment being prepared on the MTA's YouTube page: <http://youtu.be/dctBwgmB6o0>
