*FASTRACK* was introduced in January 2012, devoting four straight weeknights to perform maintenance work in tunnels, stations and on tracks, completely suspending service within a given line segment for a seven-hour period between 10 p.m. and 5 a.m. This gives free access to the system, allowing an army of maintenance workers to perform dozens of tasks without the concern of having to “clear up” to allow trains to pass.

The new *FASTRACK* corridors for 2013 include: the Broadway **NQR** south of Queensboro Plaza to Court Street; the **A** line between 168<sup>th</sup> Street and 207<sup>th</sup> Street in Upper Manhattan, the **D** Concourse Line between 161<sup>st</sup> and 205<sup>th</sup> Street; and the Lexington Avenue **456** and **6** local and express lines between Grand Central-42<sup>nd</sup> Street and 125<sup>th</sup> Street.

*FASTRACK* projects are also scheduled for the Sixth/Eighth Avenue Lines **ABC D** between 59<sup>th</sup> Street-Columbus Circle and 168<sup>th</sup> Street-Broadway and 161<sup>st</sup> Street; the Fourth Avenue line **DNR** between 36<sup>th</sup> Street and 95<sup>th</sup> Street in Brooklyn and the **2** along Nostrand Avenue between Franklin and Flatbush Avenues.

These *FASTRACK* efforts have been designed around the careful determination that there is adequate alternate means of transportation, including enhanced services along some bus lines during work periods. Alternative transportation options will be detailed in announcements and posters on trains, in stations and on selected buses; brochures will be available in both English and Spanish. Our next *FASTRACK* weekend closure will be on the **D** and **N** lines between Coney Island-Stillwell Avenue and Bay Parkway **D** and 86<sup>th</sup> Street **N**. The next *FASTRACK* weekday overnight closure will be on the Upper East Side in Manhattan on the **456** from May 20-24. **456** trains will run local in both directions between Grand Central-42<sup>nd</sup> Street and 125<sup>th</sup> Street.
