FASTRACK has been designed around the careful determination that there is adequate alternate means of transportation, including enhanced services along some bus lines during work periods. Alternative transportation options will be detailed in announcements and posters on trains, in stations and on selected buses; brochures will be available in both English and Spanish. Information on this FASTRACK is [available on the web](#).

FASTRACK was introduced in January 2012, devoting four straight weeknights to perform maintenance work in tunnels, stations and on tracks, completely suspending service within a given line segment for a seven-hour period between 10 p.m. and 5 a.m., allowing an army of maintenance workers to perform dozens of tasks.

Our next FASTRACK overnight closure will be on the **A C** between Hoyt-Schermerhorn Sts and Broadway Junction beginning Monday night February 3, and ending early Friday morning, February 7.
