IMMEDIATE

Metro-North Service Plan for Thursday Evening January 2, 2014

Due to the predicted severity of the winter storm, Metro-North is reducing service after 8 PM. At the end of the PM peak, Metro-North intends to provide hourly service on all three lines.

After midnight, locals and expresses will be combined with all local service to New Haven and Southeast and to Croton, where customers will transfer for local, diesel, service to Poughkeepsie.

Ridership Thursday was about 25% below a normal weekday, due mostly to the holiday week.

The reduced service will allow the railroad to store between 100-120 rail cars inside the protection of Grand Central Terminal and shelter them from the blowing snow. In addition, fewer trains in service will reduce the possibility of trains from becoming stranded.

The best way to stay informed about service status is to subscribe to up-to-the-minute service alerts from Metro-North. Sign up for at mymtaalerts.com to receive email or text messages.

Following are the service changes for tonight, after 8 PM:

Hudson Line:

- The 7:57 PM semi-express train to Croton-Harmon is canceled. Customers may use the 7:59 PM local train to Croton-Harmon.
