- Transfer between free shuttle buses and **F** trains at Jay St-MetroTech.
- Take **A** service is also available between Hoyt-Schermerhorn and Jay St-MetroTech.

FASTRACK has been designed around the careful determination that there is adequate alternate means of transportation, including enhanced services along some bus lines during work periods. Alternative transportation options will be detailed in announcements and posters on trains, in stations and on selected buses; brochures will be available in both English and Spanish. Information on this *FASTRACK* is available on the web at http://web.mta.info/nyct/service/fastrack_G.htm

FASTRACK was introduced in January 2012, devoting four straight weeknights to perform maintenance work in tunnels, stations and on tracks, completely suspending service within a given line segment for a seven-hour period between 10 p.m. and 5 a.m., allowing an army of maintenance workers to perform dozens of tasks.

Our next *FASTRACK* overnight closure will be on the **1** line between 96 St and Dyckman St beginning Monday night, January 13 and ending early Friday morning, January 17.
