### One Lane Closed On RFK Bridge Ramp to Bruckner Expressway For Repair Work

One of two lanes on the Robert F. Kennedy Bridge's ramp leading from the bridge to the Bruckner Expressway will be closed for repair work March 16 through April 13. One lane on the ramp will remain open at all times.

Motorists may experience delays and should allot extra travel time. The work includes removing all of the existing concrete and replacing it with new concrete.

The closure will begin Mon., March 16 after the morning rush concludes and will remain in effect around the clock until the work is completed. All work is dependent on good weather.
