IMMEDIATE

Queens Midtown Tunnel Queens-bound Tube Closed This Weekend

One lane will be open in each direction in remaining tube

The Queens-bound (south) tube at the Queens Midtown Tunnel will be closed to traffic from 10:30 p.m. Friday, June 19 through 5:30 a.m. Monday, June 22 for removal of ceiling panels damaged during Superstorm Sandy.

Motorists are advised to use an alternate route if possible.

During the weekend-long closures, one lane will be open in each direction in the remaining tube for cars and buses. All commercial traffic must use an alternate route while two-way traffic is in effect. Traffic agents and signs will be in place to help direct motorists.

Those driving into Queens should enter the tunnel at 34th Street between Second and Third avenues. Manhattan-bound motorists can exit normally at 37th Street exit to head uptown.

Downtown Manhattan-bound traffic should use the Marginal tunnel exit to 38th Street and then continue on to Second Avenue. The 34th Street and Second Avenue ramps will be closed to traffic exiting in Manhattan.
