Media Advisory: One Manhattan-bound Lane of Henry Hudson Bridge Closed Aug. 10 Through November 2015

Beginning Monday, Aug. 10, immediately after the morning rush hour, one southbound lower-level lane on the Henry Hudson Bridge will be closed at all hours through November 2015. The lane closure is necessary to accommodate previously announced construction related to updating the toll plaza for Open Road Tolling (ORT).

Two southbound lanes will remain open to traffic at all times.

All-electronic tolling became the permanent toll collection method at the Henry Hudson Bridge after a successful pilot program that has improved traffic flow and helped reduce emissions from idling cars. The current work is part of an \$8.9 million project that includes installation of overhead steel gantries, as well as full-depth asphalt and concrete pavement reconstruction on the upper and lower levels.
