### MTA Unveils New MetroCard Calculator

#### *Handy Tool Takes the Guess Work Out of Purchasing or Refilling MetroCards*

The Metropolitan Transportation Authority (MTA) today launched a new MetroCard Calculator, a handy tool that will assist customers with planning a new card purchase or refilling a full fare Pay-Per-Ride MetroCard. The MetroCard Calculator is available at [www.mta.info](http://www.mta.info) or by going directly to [www.mta.info/nyc/MetroCardCalculator](http://www.mta.info/nyc/MetroCardCalculator).

When a customer enters a dollar amount for the purchase of a new MetroCard, or the dollar amount of a planned refill, the calculator determines:

- Value added with the 11% bonus on purchases of \$5.50 or more (beginning March 22);
- The number of rides the customer gets for the money and;
- Any remaining balance on the MetroCard.

For refills, the customer can also enter the remaining balance on the card which they can get from swiping their MetroCard at a MetroCard reader located in subway stations.

The calculator will also offer suggestions for new card purchases and refill amounts that will end in zero balances. In addition, the calculator will offer suggestions on the type of MetroCard that offers the best value based on the dollar amount entered. For example, for a new card purchase of \$32 (\$31 value less \$1 new card fee), the calculator will suggest the customer consider a 7-Day Unlimited Ride MetroCard if the customer rides the subway or local bus 13 or more times in a 7-day period.

Customers will also have the option of applying for the EasyPayXpress MetroCard in order to enjoy the benefits of a MetroCard that never runs out of rides. The EasyPayXpress MetroCard is linked to the customer's credit or debit card, and refills automatically. With EasyPay there's no more waiting in line to buy or refill a MetroCard.

New Fares and Tolls are in effect Sunday, March 22, 2015 for MTA New York City Transit buses and subways, MTA Bus, the MTA Staten Island Railway, MTA Long Island Rail Road, MTA Metro-North Railroad, and MTA Bridges and Tunnels. For the purchase of new, full fare Pay-Per-Ride MetroCards, MetroCard Vending Machines will be reprogrammed with common denominations of \$10 (\$9 card value + \$1 new card fee), \$20 (\$19 card value+ \$1 new card fee), \$40 (\$39 card value+ \$1 new card fee), as well as \$28.25 (\$27.25 card value+ \$1 new card fee) that provides 11 rides and a zero balance.

Please visit <http://web.mta.info/mta/news/hearings/2015FareTolls/> for detailed information and ways to save. Need help? Dial 511; agents are on duty 6 a.m. to 10 p.m. 7 days a week.

#### MetroCard Calculator

Use this MetroCard Calculator to figure out both new purchases and refills for full fare Pay-Per-Ride MetroCard. Results will include value-added with the 11% bonus, the number of rides you'll get for your money, any remaining balance as well as purchase suggestions that will give you a zero balance.

##### Buying a New MetroCard?

##### 1 Enter \$ amount

e.g. 6.50

(\$5.50 minimum purchase + \$1 new card fee)

##### 2 Calculate

##### Refilling your MetroCard?

##### 1 Know your balance? Enter \$ amount

e.g. 0.61

If not, go to step 2

##### 2 Enter refill \$ amount

e.g. 20.00

##### 3 Calculate

MetroCard calculator

#### MetroCard Calculator

##### MetroCard Calculator Results

Amount	Card Value (less \$1 Fee)	Bonus Value	Value Added with 11% Bonus	Rides @ \$2.75	Balance
6.50	\$5.50	\$0.61	\$6.11	2	\$

See below for purchase suggestions that will give you zero balance

Amount	Card Value (less \$1 fee)	Value with 11% Bonus	Rides	Balance
