IMMEDIATE

### Overnight 15-Minute Intermittent Full Closures on Bronx-bound Upper Level of Henry Hudson Bridge and Parkway from Dyckman St

#### *Closures Scheduled for Thursday Night, Nov. 19 to Friday Morning, Nov. 20;*

Between 11 p.m. on Thursday, November 19, and 5 a.m. on Friday, November 20, intermittent 15-minute full closures are planned for the Henry Hudson Bridge and Henry Hudson Parkway (north from Dyckman Street entrance) in the Bronx-bound direction.

The closures are necessary to raise and install full-width steel overhead gantries at the toll plaza as part of the move to Open Road Tolling (ORT).

If required, the operation will repeat again on Friday, November 20, into Saturday, November 21, until 5 a.m.

All-electronic tolling became the permanent method of toll collection at the Henry Hudson Bridge in January 2015 after a successful pilot program that has improved traffic flow at the bridge and helped reduce emissions from idling cars.

The intermittent closures will be established at the Dyckman Street entrance on the northbound Henry Hudson Parkway to the Bronx.

Use of alternate route is recommended during this period.
