FASTRACK Comes to Q on the Brighton Line in Brooklyn

Q Service Operates in Two Segments; Downtown B Service Ends Early Each Night

On Monday, May 4, MTA New York City Transit brings *FASTRACK* to the **Q** on the Brighton Line between Atlantic Av-Barclays Ctr and Prospect Park for two consecutive weeks of maintenance and repairs during weeknights and overnight hours.

Beginning Monday, May 4, through Friday, May 8, and on Monday, May 11 through Friday, May 15, **Q** service is suspended between 10 p.m. to 5 a.m. from Atlantic Av-Barclays Ctr to Prospect Park. Brighton Beach-bound B service ends early, with downtown trains terminating at Atlantic Av-Barclays Ctr after 10:15 p.m.

Free shuttle buses provide alternate service, stopping at the 7 Av **B** **Q** station. Manhattan-bound and Coney Island-bound customers can transfer for train service at Atlantic Av-Barclays Ctr and Prospect Park or take the **D** or **N** trains to and from Coney Island-Stillwell Av.

Late night and overnight **Q** service will operate in two sections, between 57 St-7 Av and Atlantic Av-Barclays Ctr, and between Stillwell Av and Prospect Park. Between 10:30 p.m. and 11:30 p.m., **Q** trains bypass DeKalb Av in both directions.

FASTRACK has been designed around the careful determination that there is adequate alternate means of transportation, including enhanced services along some bus lines during work periods. Alternative transportation options will be detailed in announcements and posters on trains, in stations and on selected buses; brochures will be available in English and Spanish. Information on this *FASTRACK* is available on the web at web.mta.info/nyct/service/fastrack_Q.htm

FASTRACK was introduced in January 2012, devoting four straight weeknights to maintenance work in tunnels, stations and on tracks by suspending service within a given line segment for a seven-hour period between 10 p.m. and 5 a.m.

The next *FASTRACK* overnight closure scheduled to begin Monday night, July 6 to early Friday morning, July 10, will take place on the **Q** **R** lines in Manhattan.
