Henry Hudson Bridge Bronx-bound Overnight Intermittent Closures, Tues 1/9 & Wed 1/10

In Addition, New Manhattan-bound Traffic Pattern Starts This Week

Intermittent closures of the Bronx-bound Henry Hudson Bridge are scheduled on Tuesday, January 9, and Wednesday, January 10 from 11 p.m. to 5 a.m. for scheduled maintenance testing. Each Bronx-bound closure will last approximately 15 minutes and traffic will be halted from the Dyckman Street entrance on the Henry Hudson Parkway during these periods.

Motorists should allow for additional travel time or choose an alternate route.

In addition, starting this week a new temporary traffic pattern on the Manhattan-bound Lower Level of the bridge will be in place to accommodate previously announced roadway reconstruction of the plaza. The pattern change will not reduce traffic capacity.
