### Overnight Work to Advance MTA Subway Action Plan on EFMR Lines

#### *FASTRACK Maintenance and Repair Work Helps to Target Main Drivers of Delays While Minimizing Impact on Customers*

Beginning Monday, Feb. 12, an extensive amount of maintenance, cleaning and repair work to advance the [MTA Subway Action Plan](#) will be performed along segments of the [E](#) [F](#) [M](#) [R](#) lines, when MTA New York City Transit's *FASTRACK* program returns to stations between Jackson Hts-Roosevelt Av in Queens and World Trade Center in lower Manhattan for two weeks.

In order to minimize impact on customers and give workers unfettered access to tracks, this work will be performed for four consecutive weeknights from 9:30 p.m. to 5 a.m. on Feb. 12-16 and again on Feb. 20-23.

The [MTA Subway Action Plan](#) is a comprehensive plan to stabilize and modernize the subway system by attacking the key drivers of 79 percent of delay-causing major incidents, strategically targeting additional personnel and equipment to focus on critical parts of the system. Track and signal components are maintained and repaired, and massive amounts of debris are removed to reduce delay-causing track fires. The Subway Action Plan also focuses on improving communications to help customers plan their trips.

*FASTRACK* was introduced in January 2012, devoting four straight weeknights to maintenance work in tunnels, stations and on tracks by suspending service within a given line segment for a seven-hour period between 10 p.m. and 5 a.m. During each seven-hour period, an army of maintenance workers will take advantage of train-free access to the tracks to perform dozens of tasks that are vital to providing safe and reliable train service. These tasks include the repair and replacement of track, third rail, electrical and signal components, debris removal from tracks and under or around the third rail, and the repair of tunnel infrastructure. Improvements to stations include painting, platform work, and repairs to signage, lighting fixtures and ADA components.

"The unfettered track access of *FASTRACK* enables us to advance Subway Action Plan goals and minimize customer impact by allowing workers to do more in less time," MTA Chairman Joseph Lhota said. "We are on an urgent path to stabilizing and modernizing the subway system and intensive overnight work will help us get there."

*FASTRACK* schedules have been designed around the careful determination that there is adequate alternate means of transportation, including enhanced services along some bus lines, during work periods. Alternative transportation options will be detailed in announcements and posters on trains, in stations and on buses.

During this *FASTRACK* operation, [E](#) service will be suspended in both directions between Jackson Hts-Roosevelt Av and World Trade Ctr, and [F](#) trains will be suspended in both directions between Jackson Hts-Roosevelt Av and 21 St-Queensbridge. [M](#) and [R](#) service will end early each night. Trains will operate as follows:

- [E](#) trains run local in Queens between Jamaica Center and Jackson Hts-Roosevelt Av. No [E](#) service between Jackson Hts-Roosevelt Av and World Trade Ctr.
- [M](#) service ends early between Forest Hills-71 Av and Essex St.
- [R](#) service ends early between Forest Hills-71 Av and Whitehall St.
- [F](#) service will operate in two sections between Jamaica-179 St and Jackson Hts-Roosevelt Av making local stops, and between 21 St-Queensbridge and Coney Island-Stillwell Av. No [F](#) service between Jackson Hts-Roosevelt Av and 21 St-Queensbridge.
