### Weekend Subway Service Advisory

*Service Changes are Part of Subway Action Plan,  
Enhanced Station Initiative & Other Ongoing Maintenance,  
Repair and Capital Construction Work  
For Improvements on the 2 3 4 5 7 A C D E F J M N W*

These weekend service changes are part of the [MTA Subway Action Plan](#), the [Enhanced Station Initiative in Queens](#) and [on-going capital construction work](#) on the MTA New York City Transit subway system. These programs maintain and upgrade track, signal, station and other infrastructure in order to continue to provide MTA customers with safe and reliable service. For more information on the 2015-2019 Capital Program, click [here](#).

This weekend, work crews will be dispersed throughout the entire subway system to perform a variety of critical tasks in the areas of track replacement and maintenance, signal modernization, station enhancements, electrical upgrades and communication improvements. All of this work is aligned with the MTA Subway Action Plan, a comprehensive plan to stabilize and modernize the subway system by attacking the key drivers of 79 percent of delay-causing major incidents, strategically targeting additional personnel and equipment to focus on critical parts of the system.

“The **Weekender**” is your digital guide to understanding planned service changes in effect for system maintenance and construction, and makes it easy for subway riders to visualize exactly how weekend work will affect subway service. Customers may visit [www.mta.info](http://www.mta.info) and check out “The Weekender,” accessible by clicking the “*Weekender*” tab located within the Service Status Menu.

The “*Weekender for Mobile App*” includes MTA Subway Time data and is available for iPhone in the Apple app store, and in the Google Play store for Android devices. This free-to-download app shares the same features as the desktop version, including a subway diagram that displays the service to be provided each weekend, and all service changes. Users can pinch or expand the map to multiple zoom levels, and tap to choose one of three ways to view service diversions: Service by Line, Service by Borough and Service by Station.

Customers can also download the apps at <http://web.mta.info/apps/weekenderApp.html>.

[TripPlanner+](#) provides travel information that takes weekend service diversions into account. In addition, customers can receive customized subway diversion e-mails delivered to their inbox by signing up for the E-mail Subscription Program by clicking [here](#). Customers who rely on these lines should allow for additional travel time.
