Weekend Subway Service Advisory March 1 to 4

Service Changes are Part of Subway Action Plan, Station Repairs and Other Ongoing Maintenance, and Upgrade Work for Improvements on Multiple Lines

These weekend service changes are part of the [MTA Subway Action Plan](#), station improvements in Queens and Manhattan, and ongoing maintenance, repair and upgrade work throughout the MTA New York City Transit subway system to maintain and upgrade track, signal, station and other infrastructure in order to provide customers with safe and reliable service. More information on the 2015-2019 MTA Capital Program is available [here](#).

This weekend, work crews will be dispersed throughout the entire subway system to perform a variety of critical tasks in the areas of track replacement and maintenance, signal modernization, station enhancements, electrical upgrades and communication improvements. All this work is aligned with the MTA Subway Action Plan, a comprehensive plan to stabilize and modernize the subway system by attacking the key drivers of 79 percent of delay-causing major incidents and strategically targeting additional personnel and equipment to focus on critical parts of the system.

For a simple, graphical guide that makes it easy to visualize how this weekend maintenance, upgrade and repair work will affect subway service – and what alternative travel options are recommended – consult The Weekender at web.mta.info/weekender.html. The Weekender is accessible through the [MTA website](#) by clicking the "Weekender" tab within the Service Status Menu, and is also available as a free app for iPhone and Android devices.

[TripPlanner+](#) is an online tool that provides customized travel guidance based on available service and takes weekend service diversions into account. In addition, customers can receive customized subway status emails or texts by signing up at www.MyMTAalerts.com.
