IMMEDIATE

Scheduled Track Work Means Revised Timetables & Longer Travel Times for Babylon, Montauk & West Hempstead Branch Customers this Sat. Nov. 5 & Sun. Nov. 6

This press release updates a release issued on Tuesday, November 1.

Scheduled track work on the Babylon and Montauk Branches over the weekend of Saturday and Sunday, November 5 and November 6 will mean significant service changes on those branches as the LIRR undertakes a switch replacement project in Freeport and concrete tie installation east of Speonk.

Buses will replace trains on the Montauk Branch between Speonk and Babylon. Babylon Branch service will be reduced from half-hourly to hourly as will eastbound service to Forest Hills and Kew Gardens stations in Queens. The project will also result in some service adjustments on the Long Beach Branch and at St. Albans Station on the West Hempstead Branch.

The service changes are expected to impact approximately 26,000 customers over the two days.

To avoid the busing and longer travel time, customers on the affected branches should consider using the Ronkonkoma Branch or Huntington-Port Jefferson Branch instead.

Check the Special Branch Timetables For specific train times, customers should consult the Special Branch Timetables for the Babylon, Montauk and West Hempstead branches and the Special Timecards for the Long Beach branch and Forest Hills/Kew Gardens service at <http://web.mta.info/lirr/Timetable/> or pick up copies at terminals or branch stations.

Here is a summary of the key service changes.
