PURPOSE:

This is to inform the Long Island Committee of the MTA Long Island Rail Road’s plan to temporarily adjust schedules for a series of Switch Installations in West Side Yard.

TRACK WORK PROGRAMS

Construction Activities (Short-term trackwork items requiring a special program)

- **West Side Yard – Switch Installation** – On December 2-3, December 9-10, and December 16-17, all yard tracks within West Side Storage Yard, which is the primary storage facility for Penn Station, will be out of service to support a series of switch installations. Over the course of these three weekends, LIRR Engineering forces will be also piggybacking this outage to perform maintenance activities throughout the yard.
 - **Temporary Service Adjustments:** With the tracks in West Side Yard out of service each weekend, Far Rockaway Branch trains will be diverted from Penn Station to Grand Central Madison for a period of approximately 48-hours.

IMPACT ON FUNDING

Funding for these projects is contained in the Long Island Rail Road Operating and MTA Capital Program budget.
