**SOLICITATION TITLE: Inspection, Maintenance and Repair of Water Based Fire Suppression Sprinkler Systems**

**DESCRIPTION:** This is a contract for maintenance and repair of water-based fire suppression sprinkler systems installed at ten (10) NYCT Subways facilities and one (1) foam-water sprinkler system installed in the Hazmat Storage Facility located in the Coney Island Yard in Brooklyn. The Work to be performed under this Contract includes any and all labor, material and equipment to perform monthly, quarterly, and annual inspections, one (1) five-year FD witnessed test of sprinkler systems (including pre-test), obstruction test, and all/or any other test required by NFPA 25 and NFPA 72 and the latest NYC Transit Policy Instructions. The Work shall also include weekly, monthly, quarterly, semi-annual and annual inspections/testing of twenty-six (26) fire pumps as per the requirements of the referenced above documents. The fire pumps list as of the Effective Date is set out in Appendix 1. Subject to the terms set out herein, including the Section titled "Repairs and Upgrades of Sprinkler Systems", the Work shall include all repairs and upgrades of any components related to the sprinkler systems such as piping, pumps, valves, and other components. The Work shall include any and all repairs of fire alarm control panels including their components, wiring, strobes relocation and such.

Funding: 100% Operating  
Contract Term: 4 Years
