# Rockaway Line

## Resiliency and Rehabilitation

### Beach 105th St Signal Tower

New signal tower, compressor plant, and track crossover, adding redundancy in the system

### Rockaway Line Resilience

Protection of embankments and hardening of critical infrastructure at stations

### Hammels Wye Viaduct

Replacement of Viaduct superstructure

### Rockaway Line Viaduct

Repair, remove, and replace various deteriorated elements of the Viaduct structure

### South Channel Bridge

Replacement of electrical and mechanical systems to address state-of-good-repair needs
