L service will continue as normal during the busiest times, the main commuting times on weekdays.

On nights and weekends, L service operates around our construction area. This means trains will run less frequently than usual. To help you get around, we're giving you more options in addition to the L by enhancing other subway lines and bus routes.

- Weekdays**
5 AM to 10 PM — Regular L service reducing 8 PM
- Weeknights**
10 PM to 1:30 AM — Reduced L service
1:30 AM to 5 AM — Regular L service
- Weekends**
6 AM to 1:30 AM — Reduced L service

L nights and weekends

Plan to use alternate service to avoid crowding.

Weeknights 10 PM to 5 AM

- Service ramps down at 8 PM to make room for work trains.
- Starting at 10 PM, L runs every 20 mins between Brooklyn and Manhattan and every 10 mins between Lorimer St and Canarsie-Rockaway Pkwy.

Weekends 10 PM Fri until 5 AM Mon

- Service ramps down at 8 PM Fridays to make room for work trains.
- From 10 PM Friday through 5 AM Monday, L runs every 20 mins between Manhattan and Brooklyn. Between Lorimer St and Canarsie-Rockaway Pkwy, L runs every 10 mins from 10 PM to 1:30 AM on Friday and from 6 AM to 1:30 AM on Saturday and Sunday

If you take the L

- If you miss an arriving train, it will be faster to take the M14A/D and connect to another subway.
- We have you covered. If you swipe your MetroCard into the subway, but decide to take an alternate route, NYC Transit staff will be there to assist.
- Trains will run on one track. This means that one side of the station will be open at a time, and trains will be arriving from both directions. Watch the countdown clocks and listen to announcements to make sure you catch the right train, and don't lean over the platform edge.
- Stations will be crowded at times. Watch your step and look for NYPD or MTA staff for assistance.

Enhanced M G 7 and bus options

Because the L will run with reduced service nights and weekends, we're enhancing service on the M14A, the M G and 7 and implementing the new Williamsburg Link buses.

During the busiest hours on weekends, while the L runs every 20 mins:

- The M14A/D combined will run every 3 mins
- M will run every 8 mins
- J every 10 mins
- G every 8 mins
- 7 every 4 mins
- Williamsburg Link every 3 mins each route

Taking a combination of these other options may make your trip to and from 1 Av faster.

Here's what your weekend trip could look like:

Destination	L first train during low ridership times (assumes 10 mins wait)	L during busy ridership times (assumes waiting for second train)	Using alternate subway and bus (Williamsburg Link and/or M14)
6 Av	15 mins	37 mins	15 mins
Rockefeller Center	25 mins	45 mins	26 mins
Grand Central	23 mins	43 mins	17 mins
Bedford Av	17 mins	37 mins	38 mins

Key things to remember as you plan the route that works best for you:

- The M14A bus stop is just outside the station, and travels along 14 St, Avenue A and Essex St to the Lower East Side connecting with:
 - 4 5 6 N Q R at 14 St Union Sq,
 - B F M at 6 Av,
 - 1 2 3 at 14 St,
 - A C E at 8 Av,
 - F J M at Delancey St/Essex St.
- If you're traveling to Williamsburg, the new Williamsburg Link B91 and B92 buses connect the J M G to the Bedford Av and Lorimer St L stations.
