PROPOSED ROUTE SUMMARY

The proposed Q27 routing would remain mostly unchanged with only a small realignment from Holly Av and Kissena Blvd to Parsons Blvd and Sanford Av, avoiding narrow streets and improving performance and reliability.

To match stop spacing on other local and limited-stop portions of Rush routes, the Q27 would make local stops along Springfield Blvd and 47/48 Avs, while stops along 46 Av would only be located at key destinations and major transfer points. The proposed Q26 would provide local service where the Q27 makes limited stops. The proposed Q27 would still make local stops along 46 Av and Parsons Blvd overnight.

Frequencies would be reduced to reallocate some service to the proposed Q26 Local. Service would continue to operate 24 hours on weekdays and weekends.

Route Improvements

- Improved stop spacing
- Fewer route patterns
- NYC DOT Priority Corridor
